

Charles Feitosa\*

No-nada. Formas brasileiras do niilismo

In his notes from 1887-1888 Nietzsche wrote that "European Nihilism," the "uncanniest all of guests" [unheimlichste aller Gäste], is already waiting at the door. He tried to show that there will be several ways of nihilism in history. The present essay investigates the question, starting out from Vilem Flusser's "Fenomenologia do Brasileiro," whether there are specific "brazilian ways of being-in-nothing" [estar-no-nada].

Keywords: nihilism, phenomenology, Brazil
